Re: Advisory 10-03 Medication Removal for 2010 Protocol Change

No later than April 1, 2010, all ALS agencies must remove any remaining Diazepam, Diltiazem, Furosemide, and Haloperidol from all response vehicles and stock, and either return to their resource pharmacy or destroy.

Agencies may remove those medications at any date prior to April 1, 2010 provided all their ALS personnel have been trained in the 2010 MLREMS Standards of Care per Regional Advisory 10-02.

With any questions, please do not hesitate to contact the Regional Program Agency.
