

Advisory 19-06 Mobile Stroke Unit – Regional Training

To: All EMS Agencies/Providers

From: Jeremy T. Cushman, MD, MS, EMT-P, FACEP, FAEMS *J. Cushman*
Regional Medical Director

Date: May 9, 2019

As requested by our EMS agencies, the Mobile Stroke Unit (MSU) Program at the University of Rochester has developed a brief training video for prehospital providers. Similar to the guidelines issued in Advisory 19-04, the video demonstrates examples of both best practices and operational guidelines for prehospital interactions with the MSU.

The course entitled 'EMS Utilization of the Mobile Stroke Unit' can be found in the Cypherworx LMS platform <https://collabornation.net/login/urdpn> and awards 0.5 hours of CME following successful completion of the course.

With questions, do not hesitate to contact your Agency Medical Director or the Division of Prehospital Medicine at the MLREMS Program Agency.
