Re: Advisory 15-04: Stroke Notifications to Unity

Effective March 2, 2015, all providers who are inbound to Unity Hospital with a patient that meets the regional Stroke protocol criteria for a "Stroke Alert" are expected to contact Unity Medical Control at 585-368-4068. As with all stroke and STEMI notifications pursuant to Advisory 13-04, providers are asked when possible to provide the patient's name, their date of birth, and the time last known well. This information will allow for quick access to prior medical history which will ultimately provide more rapid and accurate care to these patients.

With any questions, please do not hesitate to contact our office.
