#### **Medical Director's Report – Jeremy Cushman**

- Coverdell Stroke Initiative June 9, 2016
  - NYS was awarded a grant to evaluate stroke care throughout NYS. This conference/working meeting will be here in Rochester. In a Prehospital setting how do we triage differently and get our patients to the right place in a timely fashion? This could bring about a change in where patients are transported depending on guidelines that come out.
  - Another meeting will take place down state in the Fall. Hopefully these meetings will result in some new guidelines for best practices.

#### **Program Manager's Report – Benjamin Sensenbach**

- Uniform patient handoff rollout
  - We are utilizing and adapting the MIST tool that we want to use for every handoff, not just trauma. We have filmed the Trauma handoff video to be used as training (to be presented at STEP Conference). After it's been presented, we will continue to record different patient handoffs at our other hospital systems.
